

Example Proposals

New passing places

- Aim for frequency between 50-100m with a clear line of site between passing place
- Width of 5.5m for 10m, tapering for 5m

Traffic modelling

- Increase road capacity by ~20%
- Save ~5 mins between Stokenham and Slapton on minor road network

Junction Safety

- Improved approach to vegetation management
- Where appropriate, width restriction
- Changes to line markings
